NJ Acts Biostatistics and Epidemiology Workshop Series

Applied Survival Analysis for Biomedical Researchers

Target Audience:

Biomedical researchers who work with survival data, including faculty members, students, post-docs, and others who need to work with this type of data. All are welcome.

Speaker:

Dirk Moore, PhD

Biography:

Dirk Moore received a PhD in biostatistics from the University of Washington in Seattle and is currently an associate professor of biostatistics at Rutgers University and at the Cancer Institute of New Jersey. Previously he was a faculty member in the Statistics Department at Temple University, and he has held visiting positions at the Radiation Effects Research Foundation in Hiroshima and at the Division of Cancer Epidemiology and Genetics at the National Cancer Institute. He is a coauthor on more than 100 publications in biostatistics, genetics, proteomics, and cancer biology.
