# NJ ACTS Special Populations Core 2022 Seminar Series

Tuesday, October 25, 2022  
Zoom | 1 – 2 pm ET

## What Makes Us Unequal? Understanding Disagreement Regarding Genes and Social Inequality with Sam Trejo, PhD

Dr. Trejo is an Assistant Professor of Sociology at Princeton University and a sociologist interested in how social and biological factors jointly shape human development across the life-course. He specializes in quasi-experimental, computational, and biosocial quantitative methods, and his research typically utilizes large administrative datasets and longitudinal studies containing molecular genetic data.
