

RUTGERS
BIOMEDICAL AND
HEALTH SCIENCES

NJ acts

Join us on Thursday, April 21st at 3pm

for the

NJ ACTS Biostatistics and Epidemiology Workshop

“Advanced Graphics in R”

Speaker:

Kylie Getz, MS
(She/Her/Hers)

Biostatistician for RUBIES

In this workshop we will create and interpret graphics in R. Data visualization techniques that will be covered include basic graphics such as histograms, boxplots, and scatterplots, as well as more advanced topics including ggplot, ROC curves, and Kaplan-Meier survival curves.

Target Audience: Researchers/Faculty/Staff/Students who want to have more familiarity with visualization options in R, all experience levels are welcome.
